

ST. MICHAEL'S SCHOOL

Class: 3rd

Subject: Memory Magic (G.K.)

Computer Savvy

Page no. 21

(A computer has many parts. Each part does a special job. The computer is sometimes called the 'artificial brain'.)

➤ **Read the clues and write the names of these parts of a computer:**

- 1.** I look like a TV screen. I am also called the Visual Display unit. **Monitor**
- 2.** I am the brain of the computer. **CPU**
- 3.** I provide continuous power when the normal power supply is cut. **UPS**
- 4.** I help to listen to the sound from a computer. **Speaker**
- 5.** I am used to enter information. I have keys like a typewriter. **Keyboard**
- 6.** I am used to click to run a program or open a file. **Mouse**
