

ST. MICHEAL'S SCHOOL

CLASS: 3RD

SUBJECT: - MATH

Chapter: - 7

Time Goes On

I. Write the given time in a.m. and p.m.

- i. 11 o'clock at night = 11 p.m.
- ii. 7 o'clock in the morning = 7 a.m.
- iii. 3 o'clock in the afternoon = 3 p.m.
- iv. 6 o'clock in the evening = 6 p.m.
- v. 7:30 in the evening = 7:30 p.m.
- vi. 9:30 in the morning = 9:30 a.m.

II. Write the time by given a.m. and a.m.

- i. 7:30 a.m. = 7 :30 in the morning.
- ii. 9:00 a.m. = 9 o'clock in the morning.
- iii. 12:30 p.m. = 12:30 in the afternoon.
- iv. 12:30 p.m. = 12:30 at night.
- v. 11:00 p.m. = 11 o'clock at night.
- vi. 6:00 p.m. = 6 o'clock a in the evening.

III. Draw the clock and show the time: -

1) 8 o'clock

3) 3 o'clock

5) Quarter to 5 (4:45)

2) 12:30 (half past 12)
(9:15)

4) 12 o'clock

6) Quarter past 9

So, $11 \text{ hours} = 11 \times 60 \text{ minutes}$
 $= 660 \text{ minutes}$

4. 9 hours,

We know that, $1 \text{ hour} = 60 \text{ minutes}$

So, $9 \text{ hours} = 9 \times 60 \text{ minutes}$
 $= 540 \text{ minutes}$

5. 10 hours,

We know that, $1 \text{ hour} = 60 \text{ minutes}$

So, $10 \text{ hours} = 10 \times 60 \text{ minutes}$
 $= 600 \text{ minutes}$

VI. Change into seconds (How many seconds): -

1. 1 minute,

We know that, $1 \text{ minute} = 60 \text{ seconds}$

2. 2 minutes,

We know that, $1 \text{ minute} = 60 \text{ seconds}$

So, $2 \text{ minutes} = 2 \times 60 \text{ seconds}$
 $= 120 \text{ seconds}$

3. 6 minutes,

We know that, $1 \text{ minute} = 60 \text{ seconds}$

So, $6 \text{ minutes} = 6 \times 60 \text{ seconds}$
 $= 360 \text{ seconds}$

4. 7 minutes

We know that, $1 \text{ minute} = 60 \text{ seconds}$

So, $7 \text{ minutes} = 7 \times 60 \text{ seconds}$
 $= 420 \text{ seconds}$

5. 12 minutes,

We know that, $1 \text{ minute} = 60 \text{ seconds}$

So, $12 \text{ minutes} = 12 \times 60 \text{ seconds}$
 $= 720 \text{ seconds}$
